

Sage MAS 90 MAS 200 Extended Enterprise Suite (EES) FAQs

What is Sage Extended Enterprise Suite? Sage Extended Enterprise is an integration of three existing Sage products:

- **Sage MAS 90 or 200** Version 4.3 and higher (same feature capabilities as current MAS product with more modules and integration to CRM and FAS)
- **Sage CRM** (Microsoft SQL Server 2000, 2005, 2008 required and not included)
- **Sage FAS** (1,500 asset edition)

What are the Sage MAS 90 or 200 components included with Extended Enterprise Suite? MAS 90 or 200 depending upon version purchased includes full versions of the following modules at level 4.3 or higher. **Note:** This is the same core MAS 90 or 200 functionality as exists in the current product.

Library Master	Business Insights	Paperless Office
General Ledger	Accounts Payable	Accounts Receivable
Bank Rec	Fixed Assets	FRx Desktop-1 User
Inventory	Sales Order	Purchase Order
RMA	Credit Card Processing	Bill of Materials
CRM	Custom Office	Visual Integrator
Crystal Reports Designer		

Is there any additional functionality for the MAS 90 or 200 component? The included MAS 90 or 200 modules have the same functionality as standard MAS 90 or 200. They are bundled with other Sage products to which they have been integrated.

What does Sage EES for MAS 90 or 200 cost?
